

**STATE OF TENNESSEE
DEPARTMENT OF ENVIRONMENT AND CONSERVATION
DIVISION OF WATER RESOURCES**

**PUBLIC NOTICE OF AVAILABILITY OF PROPOSED
TOTAL MAXIMUM DAILY LOAD (TMDL) FOR E. COLI
IN
FORT LOUDOUN LAKE WATERSHED (HUC 06010201), TENNESSEE**

Announcement is hereby given of the availability of Tennessee's proposed Total Maximum Daily Load (TMDL) for E. coli in the Fort Loudoun Lake watershed, located in eastern Tennessee. Section 303(d) of the Clean Water Act requires states to develop TMDLs for waters on their impaired waters list. TMDLs must determine the allowable pollutant load that the water can assimilate, allocate that load among the various point and nonpoint sources, include a margin of safety, and address seasonality.

A number of waterbodies in the Fort Loudoun Lake watershed are listed on Tennessee's Final 2014 303(d) list as not supporting designated use classifications due, in part, to pasture grazing. The TMDL utilizes Tennessee's general water quality criteria, continuous flow data from a USGS discharge monitoring station located in proximity to the watershed, site specific water quality monitoring data, a calibrated hydrologic model, load duration curves, and an appropriate Margin of Safety (MOS) to establish allowable loadings of pathogens which will result in the reduced in-stream concentrations and attainment of water quality standards. The TMDL requires reductions of E. coli loading on the order of 47.8-93.7% in the listed waterbodies.

The Fort Loudoun lake E. coli TMDL may be downloaded from the Department of Environment and Conservation website:

<http://www.tn.gov/environment/article/wr-ws-tennessees-total-maximum-daily-load-tmdl-program>

Technical questions regarding this TMDL should be directed to the following members of the Division of Water Resources staff:

Vicki S. Steed, P.E., Watershed Management Unit
Telephone: 615-532-0707

David M. Duhl, Ph.D., Watershed Management Unit
Telephone: 615-532-0438

Persons wishing to comment on the proposed TMDLs are invited to submit their comments in writing no later than September 26, 2016 to:

Department of Environment and Conservation
Division of Water Resources
Watershed Management Section
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, TN 37243

All comments received prior to that date will be considered when revising the TMDL for final submittal to the U.S. Environmental Protection Agency.

The TMDL and supporting information are on file at the Division of Water Resources, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 11th Floor, Nashville, Tennessee 37243. They may be inspected during normal office hours. Copies of the information on file are available on request.
